

"WEB-OPPORTUNITIES" CHART

How can a business **seriously** utilize the internet?
 Is your business **maximizing the options** the internet provides?

NOTE: The two in **BROWN** are not business functions. It seems everything else can have a business use!

This list is not absolute, but fairly comprehensive.

You may not need any of these functions. Are some that your business could be effectively utilizing?

Many of these functions are FREE tools to help your business.

Web tools can be used like a serious tool or like a passing fad... it's up to you how YOU really use it.
